ARCHITECT IN SOFTWARE SOLUTIONS

FOR DESKTOP AND ELECTRONIC PUBLISHING

DATA SYSCOM

DATA SYSCOM, architect of desktop publishing software solutions, is a key player in the field of document management, mailing and dematerialization. Also specializing in the field of desktop publishing, DATA SYSCOM offers Scop Software Suite™, a software suite supporting the complete document lifecycle (conversion, composition, printing, mailing and dematerialization). From SMEs to large public and private accounts, DATA SYSCOM offers its solutions in France and internationally.

CONTROL

YOUR DATA FLOWS

Document production is the main stage symbolizing desktop publishing. From the «binary» state to a material state (paper), production is a complex stage where the contribution of business solutions is essential to guarantee a faithful and relevant result.

DATA SYSCOM offers through Scop Software Suite™ solutions covering all aspects of document management: from document generation to final delivery.

YOUR DOCUMENT PROCESSES

DATA SYSCOM offers its customers optimization and a quick and measurable return on investment. Easily optimize the use of your printers and the processing time of your documents.

SCOP SOFTWARE SUITE

Master your documents, from their creation to their final sending

- Management and archiving — **ScopArchive**
- **ScopTransform** — Data stream conversion in different formats
- **ScopFactory** — Data formatting into effective and impactful document
- **ScopProduction** — Post composition, printing and sending documents
- **ScopOffice** — Creation, mailings and print management

SCOP SOFTWARE SUITE

Scop Software Suite™ is a suite of software solutions to improve document and mail management in the enterprise. It also accelerates all processes with the objective of fluidifying and improving the circulation of information within the company.

Scop Software Suite™ offers users and administrators complete control of document processes with the ability to completely customize solutions to their needs.

Optimize your flow management with our solutions

ScopTransform™

A true print flow transformation tool, ScopTransform™ guarantees a perfect conversion of your files whatever the input format (AFP, IPDS, PS, PCL, PDF...) to the desired output format.

ScopDesign™

Compose your documents easily. Our dynamic and customized formatting solutions adapt to your existing or future needs.
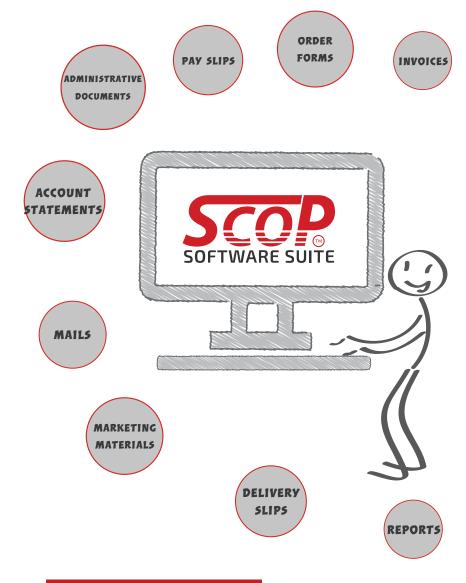

ScopProduction™

Controlling your printing flows is essential. Our solutions allow you to manage the production of documents, to define priorities for the flows according to the constraints. (business, postal...), to direct the documents towards the defined peripherals (printers, black and white, color or any other electronic destination).

ScopOffice™

ScopOffice™ office solutions guarantee professional results with ease of use and grip. Send your documents to a production site, to electronic vaults or via email.

ScopArchive™

ScopArchive™ allows you to make available, distribute, view, print and manage your company's computerized documents and reports. ScopArchive™ also provides fully secure legal electronic archiving.
